Reasons for allowance

1. This communication is in response to applicant's 12/01/2004 amendment in the application of Barnhart for an "Available bandwidth control mechanism" filed 11/20/2000. The proposed amendments has been entered and made of record. Claims 1, 2, 13, 14, 22, 25, 26, 35, 36 have been canceled per applicant's request, and claims 3, 5-7, 11-12, 15, 21, 23-24, 27, 33-34, 37-40, 44-45 have been amended. The claims have been amended to include the allowable subject matter set forth in the office action mailed on 10/04/2004.

In view of applicant's amendment to amend the claims 5, 6, 25 and 39 to obviate the §112 rejections, therefore, examiner has withdrawn the rejection of record under 35 U.S.C §112, second paragraph.

2. Claims 3-12, 15-21, 23-24, 27-32, 37-45 are allowable as evident by applicant's amendment (Claims are renumbered as 1-36 respectively)

3. The following is an examiner's statement of reasons for allowance: The closest prior art of record fails to disclose or suggest wherein the gain and filtering module generates a control sequence number corresponding to the control value; wherein the scheduler reads the control sequence number associated with the measurement period, the control sequence number being included in a metric message that contains the bandwidth metrics; wherein the reference control value having an index based upon a round trip control time (RTCT) between sending of the control value and a subsequent control value; wherein RTCT includes propagation delay,

message transmit/receive delays, and message processing delay, and wherein the control value is sent to the traffic control processing logic on a predetermined interval, the index being based upon a ratio of the RTCT and the predetermined interval, as recited in the claims. The prior art of record also fails to disclose or suggest wherein the correction value is further based upon a split gain that specifies at least one of a first gain and a second gain based upon the computed difference, and the correction value is further based upon a unity gain, as specifically recited in the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
